

**STEADFAST DEFENDER 24 (STDE24), the principal NATO multi-domain exercise for 2024, is a series of national and multinational large-scale live exercises (LIVEX) conducted across various geographical locations within SACEUR's area of responsibility. It is the largest NATO exercise in decades, with approximately 90,000 soldiers, sailors and airmen from 31 Allies and Sweden, and it will be based on NATO's new defence plans.**

**Exercise aim:**

STDE24 will demonstrate NATO's ability to rapidly deploy forces from North America and other parts of the Alliance to reinforce the defence of Europe. This reinforcement will occur during a simulated emerging conflict scenario with a near-peer adversary. It will show that NATO can conduct and sustain complex multi-domain operations over several months, across thousands of kilometres, from the High North to Central and Eastern Europe, and in any condition.

STDE24 will be a clear demonstration of NATO's transatlantic unity, strength and determination to continue to do all that is necessary to protect each other, our common values and the rules-based international order. NATO exercises are defensive, transparent, proportionate, and conducted in full respect of our international obligations.

**Fast Facts:**

- ❖ Participation from approximately 90,000 personnel from all 31 Allies and Sweden
