

## STEADFAST DART 25 (STDT25)

**STEADFAST DART 25 (STDT25), the principal NATO exercise for 2025, will be the first large-scale deployment exercise of NATO's Allied Reaction Force (ARF) conducted across various geographical locations within SACEUR's area of responsibility. It is the largest NATO exercise in 2025, with approximately 10.000 soldiers, sailors, airmen, and marines from 9 Allies, and it will be based on NATO's new defence plans.**

### **Exercise aim:**

Exercise Steadfast Dart 2025 is the first large-scale deployment of NATO's Allied Reaction Force (ARF). The aim is to test the deployable capabilities and procedures as well as the interoperability among the troop contributors and host nations.

The NATO Allied Reaction Force (ARF) is a strategic, high-readiness, multi-domain capable force. It provides multi-domain forces from across the Alliance to produce effects at shorter notice than has previously been possible.

STDT25 will demonstrate NATO's ability to rapidly deploy forces to reinforce NATO assets located along its eastern flank. This reinforcement will occur during a simulated emerging conflict scenario with a near-peer adversary. It will show that NATO Allied Reaction Force (ARF) can conduct and sustain complex operations across thousands of kilometers in the Eastern Europe, and in any condition.

STDT25 will be a clear demonstration of NATO's unity, strength and determination to continue to do all that is necessary to protect each other, our common values and the rules-based international order. NATO exercises are defensive, transparent, proportionate, and conducted in full respect of our international obligations.

### **Fast Facts:**

- Participation of **10.000** personnel from 9 Allies: Bulgaria, France, Greece, Italy, Romania, Spain, Slovenia, Türkiye, United Kingdom.
- Air, land, maritime, and special operation forces will participate.
- **17** naval assets including, amphibious landing ships, frigates, mine countermeasure vessels, destroyers and submarines.
